

IS CHIVALRY DECAYING?

California has always been regarded as the spot where chivalry made a sort of camping ground. It isn't camping there now to any considerable extent.

Not long ago a man named Dagget was so badly burned that the doctors said that unless some new skin from some other person could be grafted on his he would die. So he offered \$100 for 45 square inches of skin.

Presently the newspapers announced that Mrs. Lucy Pratt, a widow, for the sake of her three children and aged mother, who depended on her for support, was ready to furnish the necessary article. One would have supposed that some wealthy Californian would have paid that \$100 to her rather than see her make such a sacrifice and save the great State of California the shame of having a woman step to the front on such a proposition, while stalwart men were holding back.

But the woman was compelled to go under the doctor's knife all the same, and the State of California looked on complacently and allowed it to be done.

Now, the APPEAL believes that Nevada will raise a purse for that brave little woman.

We suggest that every newspaper office in the sagebrush present its readers with the facts of this case and open subscription at the sum of ten cents and no more, to make up a handsome money testimonial for Mrs. Lucy Pratt of San Francisco, the woman who had more nerve than the whole State of California.

HURRAH FOR SALT LAKE.

Last Monday the Gentiles of Salt Lake carried the city election by nearly 1,000 majority. It was a great day for the Salt Lake Tribune, which, under Judge Goodwin's management, has been marshalling the forces against Mormonism.

Salt Lake will be a white man's city in the future.

Providence seems to be on the side of the American farmers this year. Abundant crops are the rule throughout America, and the fact that the cereal crops are almost failures in Russia and India, which have been referred to as Europe's granaries, makes it certain that the American farmers will be able to get big prices for their products. The farmers are to be congratulated; they have had a hard time for several years, but the turn has come and, thanks to the McKinley tariff law and the big crops, they are to receive their share of the country's prosperity. Republican legislation did not make the big crops, but by enhancing the price of farm products it enabled the farmers to get the full benefit of them.

The Harvey armor-plate has proved to be a triumph of American ingenuity and skill. At the test made at Annapolis they beat the record of resistant power. The English and French manufactures have been experimenting for years to get the best plates. France was ahead until we entered the competition. We are already making the best guns, and are now experimenting on projectiles, with favorable results thus far.

After years of litigation the Supreme Court of the United States has decided in favor of Edison's exclusive right to the incandescent electric light. This recognition of the great inventor's claim to the fruits of his genius and industry will be hailed as just, and is a fitting rebuke to the pirates, who, under cover of law, attempted to filch from him his just dues.

Senator William M. Stewart of Nevada, has written an open letter to Senator John Sherman in opposition to the position taken by the Ohio Senator in a letter which was published last Thursday in New York.
